

## Pennsylvania Medical Assistance Transportation Program (MATP)

The Pennsylvania Medical Assistance Transportation Program (MATP) assists AmeriHealth Mercy Health Plan members in accessing non-ambulance transportation services. We would appreciate your promotion and support of this critical program for members who otherwise could not get to their appointments.

MATP services include transportation to and/or from a medical facility, physician's office, dentist's office, hospital, clinic, pharmacy or purveyor of medical equipment

for the purpose of receiving medical treatment or a medical evaluation, or the purchasing of prescription drugs or getting medical equipment. This does not include medical transportation that would normally be provided by an ambulance. Members must first register for the service by calling their county service number listed below. These numbers are also on the back of the member Co-payment Schedule, or located on our Web site:
